Contents

NUMBER 1, JANUARY 1986

1 *M. M. Ash:* Current concepts in the aetiology, diagnosis and treatment of TMJ and muscle dysfunction

21 *L. W. Lindquist, G. E. Carlsson and B. Hedegård:* Changes in bite force and chewing efficiency after denture treatment in edentulous patients with denture adaptation difficulties

31 *V. Piddock, P. M. Marquis and H. J. Wilson:* Comparison of the strengths of aluminous porcelain fired on to platinum and palladium foils

39 *C. P. Owen:* The prophylactic reduction of cusps—is it desirable?

49 *Ø. E. Jenson and J. L. Soltys:* Six months clinical evaluation of prefabricated veneer restorations after partial enamel removal

57 *D. Lundgren and L. Laurell:* Occlusion force pattern during chewing and biting in dentitions restored with fixed bridges of cross-arch extension. I. Bilateral end abutments

73 *N. Tinanoff, B. Siegrist and N. P. Lang:* Safety and antibacterial properties of controlled release SnF_2

83 *C. L. Watson, P. E. Reeve, E. Barnes, A. E. Lane and J. F. Bates:* The role of personality in the management of partial dentures

93 *C. P. Owen:* An investigation into the compatibility of some irreversible hydrocolloid impression materials and dental gypsum products. Part I. Capacity to record grooves on the international standard die

NUMBER 2, MARCH 1986

105 *A. Wedel and G. E. Carlsson:* A four-year follow-up, by means of a questionnaire, of patients with functional disturbances of the masticatory system

115 *G. Preti, P. Pera and F. Bassi:* Prediction of the shape and size of the maxillary anterior arch in edentulous patients

127 *P. W. Lucas and D. A. Luke:* Is food particle size a criterion for the initiation of swallowing?

137 *A. Sheikholeslam, K. Holmgren and C. Riise:* A clinical and electromyographic study of the long-term effects of an occlusal splint on the temporal and masseter muscles in patients with functional disorders and nocturnal bruxism

147 *C. P. Owen:* An investigation into the compatibility of some irreversible hydrocolloid impression materials and dental gypsum products. Part II. A refined discriminatory procedure

163 *M. T. S. Orr:* The application of a duplication technique in post-surgical prosthodontics

169 *R. B. Winstanley:* A retrospective analysis of the treatment of occlusal disharmony by selective grinding

183 *E. Yontchev, B. Meding and B. Hedegård:* Contact allergy to dental materials in patients with orofacial complaints

191 *D. Lundgren and L. Laurell:* Occlusal force pattern during chewing and biting in dentitions restored with fixed bridges of cross-arch extension. II. Unilateral posterior two-unit cantilevers

NUMBER 3, MAY 1986

205 *P. W. Lucas, D. A. Luke, F. C. T. Voon, C. L. Chew and R. Ow:* Food breakdown patterns produced by human subjects possessing artificial and natural teeth

215 *H. Moseley, R. Strang and K. W. Stephen:* An assessment of visible-light polymerizing sources

225 *C. S. Stohler and M. M. Ash:* Excitatory response of jaw elevators associated with sudden discomfort during chewing

235 *B. Håkansson, E. Yontchev, N.-G. Vannerberg and B. Hedegård:* An examination of the surface corrosion state of dental fillings and constructions. I. A laboratory investigation of the corrosion behaviour of dental alloys in natural saliva and saline solutions

247 *F. A. Xhonga-Oja and S. Valdmanis:* Factor analysis of dental erosion occurrence

257 *R. Strang, A. Cummings, K. W. Stephen and P. McMenemy:* Further abrasion resistance and bond strength studies of fissure sealants

263 *A. Shiba, K. S. Shiba and K. Suzuki:* Analysis of salivary proteins by thin layer sodium dodecylsulphate polyacrylamide gel electrophoresis

273 *E. A. Klonoff and J. W. Janata:* The use of bilateral EMG equalization training in the treatment of temporomandibular joint dysfunction—A case report

279 *H. J. Mueller, Z. I. Sabri, A. J. Suchak, S. McGill and J. W. Stanford:* Noise level evaluation of dental handpieces

293 Erratum

NUMBER 4, JULY 1986

295 *F. Gustavsen and J. Silness:* Clinical and radiographic observations after 6 years on bridge abutment teeth carrying pinledge retainers

299 *M. M. A. Vrijhoef and H. Letzel:* Creep versus marginal fracture of amalgam restorations

305 *R. Strang, A. Cummings and K. W. Stephen:* Laboratory studies of visible-light cured fissure sealants: setting times and depth of polymerization

311 *A. Tallgren, G. Tryde and H. Mitzutani:* Changes in jaw relations and activity of masticatory muscles in patients with immediate complete upper dentures

325 *M. M. A. Vrijhoef, F. L. Lourens and G. F. M. Leydekkersgovers:* A modified technique to determine the tear energy of impression materials

329 *J. Payan, G. E. Moya, J. M. Meyer and F. Moya:* Changes in physical and chemical properties of a dental palladium–silver alloy during metal–porcelain bonding

339 *F. A. Xhonga-Oja, E. Sonnabend and H. Krapp:* Criteria leading to patient loss from dental school clinics

347 *E. Eerikäinen and T. Rantanen:* Inaccuracies and defects in frameworks for removable partial dentures

355 *C. Shen and K. Herrin:* Assessment of microleakage of restorative materials by a diffusion model

365 *E. Yontchev, B. Håkansson, B. Hedegård and N.-G. Vannerberg:* An examination of the surface corrosion state of dental fillings and constructions. II. A clinical study on patients with orofacial complaints.

383 *H. J. Mueller:* Particle and pore size distributions of investments

NUMBER 5, SEPTEMBER 1986

395 *U.-M. Ettala-Ylitalo, H. Markkanen and A. Yli-Urpo:* Occlusal interferences analysed in patients treated with fixed prosthesis four years earlier

401 *F. H. J. Hendriks, H. Letzel and M. M. A. Vrijhoef:* Composite versus amalgam restorations. A three-year clinical evaluation

413 *V. B. Dhuru and C. H. Lloyd:* The fracture toughness of repaired composite

423 *S. Karlsson:* A clinical evaluation of fixed bridges, 10 years following insertion

433 *M. Naeije and T. L. Hansson:* Electromyographic screening of myogenous and arthrogenous TMJ dysfunction patients

443 *R. Highton, A. A. Caputo and J. Matyas:* Retentive and stress characteristics for a magnetically retained partial overdenture

451 *L. V. Christensen:* Physiology and pathophysiology of skeletal muscle contractions. Part I. Dynamic activity

463 *L. V. Christensen:* Physiology and pathophysiology of skeletal muscle contractions. Part II. Static activity

479 *L. Lemaitre, M. Moors and A. P. van Peteghem:* An application of impedance techniques to corrosion research on dental amalgam

487 *T. Jemt:* Changes in masticatory movement parameters within the chewing period in young dentate persons and patients rehabilitated with bridges supported by implants in the mandible

497 Announcement

NUMBER 6, NOVEMBER 1986

499 *G. A. Ruff, R. A. Moss and T. W. Lombardo:* Common migraine: a review and proposal for a non-vascular aetiology

509 *U.-M. Ettala-Ylitalo:* Effects of occlusal adjustment on the periodontal condition and on the symptoms of masticatory dysfunction in patients treated with fixed prosthesis—a one-year follow-up study

521 *J. R. Strub, C. S. Eyer and N. K. Sarkar:* Heat treatment, microstructure and corrosion of a low-gold casting alloy

529 *T. H. Hijzen, J. L. Slangen and H. C. van Houweligen:* Subjective, clinical and EMG effects of biofeedback and splint treatment

541 *G. M. Feingold, A. A. Grant and W. Johnson:* The instantaneous centre of rotation of a fixed unilateral distal extension partial denture

549 *G. M. Feingold, A. A. Grant and W. Johnson:* The effect of partial denture design on abutment tooth and saddle movement

559 *N. K. Sarkar and C. S. Eyer:* Solid solubility of tin in silver–mercury γ_1 in dental amalgams

567 *C. Hagberg:* The amplitude distribution of electromyographic activity of masticatory muscles during unilateral chewing

575 *C. H. Rubinoff, E. H. Greener and P. J. Robinson:* Physical properties of peridontal dressing materials

587 *L. V. Christensen and G. J. Ziebert:* Effects of experimental loss of teeth on the temporomandibular joint

599 *M. Addy and P. Dowell:* Dentine hypersensitivity: effect of interactions between metal salts fluoride and chlorhexidine on the uptake by dentine

607 *H. Devlin and D. G. Wastrell:* The mechanical advantage of biting with the posterior teeth

611 *C. Carels and D. van Steenberghe:* Post-stimulus EMG complexes in the masseter muscle following gingival electrical stimulation in man

619 Index to Volume 13
